

The Editor's Award

The 2013 Editor's Award recipients are Megan Flanders and Richard C. Kavanagh of the University College Cork, Ireland for their paper entitled Visualizing Compound Rotations with Virtual Reality.

Their paper was published in volume 77, number 3 of the Journal and can be found at:
<http://www.edgj.org/index.php/EDGJ/article/view/388>

The Editor's Award was established to recognize the outstanding paper published in the previous volume of the *Engineering Design Graphics Journal*. The recognition includes a framed citation and a cash award and is presented during the following Annual Conference.

The award description can be found at: <http://edgd.asee.org/awards/editors/index.htm>
